IAG JAWS® ARMORED PERSONNEL CARRIER

Introduction

IAG is proud to introduce the JAWS® Armored Personnel Carrier, a vehicle armoring solution specifically designed and engineered for personnel transport in regions such as Iraq and Afghanistan. The IAG JAWS® APC is built on a heavy duty truck chassis, equipped with a powerful turbocharged diesel engine and intelligent AWD system.

Vehicle Armoring: Overview

Full Vehicle armoring with certified CEN B6/NIJ III Level ballistic material, including front, sides, rear, roof, and floor, designed to resist incoming ballistic threats from any angle. Driver and all passengers are completely protected against explosive threats. Add-on armor kit is available to provide additional multi-hit protection of passenger compartment up to CEN B7 / NIJ IV levels.

Vehicle Armoring: Interior

- Seating capacity for 8 fully geared personnel plus driver and co-driver seat
- All seats are equipped with 4-point seat harnesses
- Entry/exit points at both sides and rear of the vehicle
- Large ballistic glass panels provide optimal visibility of external environment
- Spring loaded gun-ports integrated at each seat to allow for defensive actions

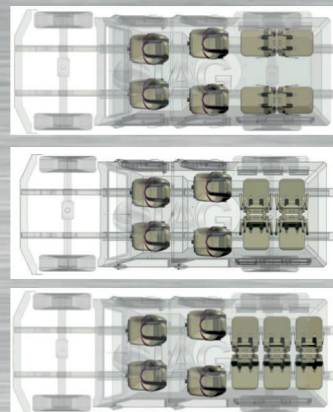

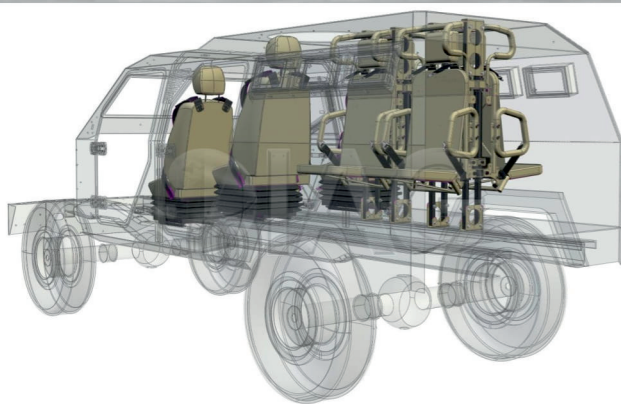

Interior Ergonomics

- Commercial SUV dashboard and controls for easy navigation and use
- Full entertainment system comprising of FM/AM radio, cassette player and CD player
- Front and rear HVAC system
- 12V electrical system upgradable to 24V

Blast Attenuation & Mitigation Seating System

- Seating system designed to protect occupants from the intense forces of an explosion
- Blast attenuation and mitigation technology minimizes the shockwave and downward forces imposed on the occupants
- Compatible with tactical vest, body armor, and CamelBak hydration packs
- Custom seating layouts available, configured to specific mission requirements

Other features

- Wire mesh protection for all lights
- Two spare tire assemblies
- Auxiliary fans
- Roof mounted turret

- Automatic engine fire suppression system
- Eight gun ports
- Jump seats
- Heavy Duty 300 AMP alternator
